Subject: RE: Dental issues in Rutland

Tracey,

Would you please thank Janet for her letter. We tried getting those responsible for commissioning dentistry to a meeting of the Adult and Health Scrutiny Committee under our old arrangements and subsequently to a meeting in July of the Overview and Scrutiny Committee. We have been unsuccessful. We are, however, expecting someone to attend our September meeting. Therefore, at our July meeting we will be reviewing data related to dentistry and formulating the approach we intend to take in September. It would be helpful if Janet could attend as an expert witness and give us the highlights of the result of your poll for, say, no more than 5 minutes then be available to answer any questions members might have. The meeting is 7 July starting at 7pm.

Best Wishes,
Gale Waller
